

# Refrigerator & Freezer Early Retirement Incentive

## To Receive Your Incentive:

- You must be a member of Missoula Electric Cooperative.
- The appliance must be a minimum capacity of 10 cubic feet.
- Please attach a copy of disposal/recycling documentation.
- You must obtain a contractor's signature certifying the unit was in working condition and the Freon was removed prior to recycling/disposal (red box to right).
- Please complete the member portion of incentive form and sign where indicated .

Missoula Electric Cooperative consumers will receive a credit of \$100.00 to their account for the early retirement of a qualifying refrigerator or freezer located at their residence in MEC service territory.

Consumers are limited to two early retirement incentive payments.

The early retirement incentive is a limited offer and is subject to change.

# Refrigerator/Freezer Recycling Information

MEC provides the following information to assist our members in meeting the requirements of the Refrigerator/Freezer Early Retirement Incentive Program. The existing appliance recycled must be verified as functional, be decommissioned by a refrigerant capture facility and its components be recycled. Documentation must be provided indicating the size of the unit and certifying the Freon was captured before the unit was recycled.

## Licensed Refrigerant Capture Facilities:

- **R & R Appliances.** Appliances must be taken to their location for decommissioning and recycling.

R & R Appliance Center, Inc  
845 Ronan St.  
Missoula, MT 59801  
406-542-5040

## Retailers Offering Removal of Existing Units:

- **Best Buy:** Delivery charge includes removal of existing appliance. Receipt must document removal of the existing appliance.
- **Home Depot:** Appliance removed by contractor for Home Depot. Have the contractor fill out and sign the incentive form at time of removal.
- **Lowe's:** Removal of existing appliance is available through retailer. Receipt must document removal of the existing appliance.
- **Vann's:** Appliance removal is available through retailer. If removal is requested, "Freon Removal" will be indicated on the invoice provided to the customer.

This list is not meant as an endorsement by MEC of any of the above retailers and is not all inclusive. There may be additional local facilities or retailers who recycle used refrigerators and freezers. Additional fees may be charged by retailers for removal and recycling of existing appliances. These fees are the sole responsibility of the member. If the receipt provided by the retailer does not indicate the removal and recycling of the existing appliance, the Contractor Certification (red box on the incentive form) must be completed and signed by the party responsible for removing the appliance.
