Closest MEC Facility:

ID #: _____

This is a 10 digit number that is on all MEC equipment on a yellow and black tag. These numbers represent the Township, Range, Section, and personal MEC Identity Number.

If the parcel in question is a difficult place to find please supply us with directions. These will help our technicians find the location and save everybody some time.

Please provide us with a plot plan including: legal description with Township, Section, and Range and/or Certificate of Survey number; water/sewer system locations; building locations; roads & driveways; and any other non-utility owned facilities on the property.

Please circle any that will apply to this project:

- | | | |
|-----------------|-----------------|-------------------------|
| Pedestal | Meter on Pole | Meter on House |
| 200 Amp Service | 400 Amp Service | CT Can 600 Amps or more |
| Single Phase | Three Phase | Security Light |

The \$75.00 Engineering Fee will be paid to Missoula Electric Cooperative prior to meeting with the staking technician in the field. This fee is non-refundable, and it will be credited toward any construction charges for this project.
